# Mayranne do Nascimento

Hey! I'm looking for an opportunity to become a junior or apprentice frontend web developer, or junior UI/UX Designer.

After completing a 12-week intensive full stack web application development course with Code Nation, I demonstrated that I can learn multiple technologies and technical skills quickly and efficiently, in addition to being able to develop projects using GitHub to work collaboratively.

I have the right to work in the UK*.

Experience

Bootcamp CodeNation
Master: Software Development | 2022

- In the course I learned both skills and the knowledge needed to begin my career as a Junior Developer.
- HTML, CSS, JavaScript, React.js, GitHub & Netlify hosting. And I also learned about UI/UX and Figma.

Rainbow Donuts (Uberlândia)
Co-Owner | 2019-2021

- Products creation and decoration, search for seasonal sales ideas.
- Managed all social medias (Instagram, Facebook) and talked with customers (WhatsApp, DM).

Office Administrative Assistant
Government of Uberlândia | 2013-2019

- Making sure important documents are organised, and creating or managing spreadsheets and presentations.
- Talking with clients to resolve problems and answer questions.
